COMMENT

This standout cow comes from the renowned Big Boy line, key to advancing Zambian sable genetics in South Africa.

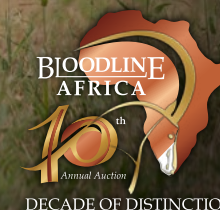

It produced top bulls like Busanga (52 $\frac{4}{8}$ "), with siblings Harley (51 $\frac{4}{8}$ ") and Kasempa (54 $\frac{4}{8}$ " at just 5y 9m). Viola carries elite female genetics - her grandmother, B77 (35"), is part of our foundational matriarchal blueprint, a core of our breeding program. COMMENT

This beautiful, big-bodied buffalo cow with impressive horn mass and excellent spread is a proud descendant of the formidable 46 ⁵/₈" Jumbo—celebrated for his powerful horns and remarkable SCI score of 130". Tag 54 continues Jumbo's enduring legacy, despite his untimely passing after a lightning strike at a young age. Paired with 51" Billie from the distinguished namesake lineage, this lot presents an extraordinary opportunity to acquire offspring from two iconic bloodlines—a true testament to the strength of the Dries Visser breeding program.

Dries Visser remains a passionate advocate for breeding superior buffalo, placing strong emphasis on the value of utilizing all quality bloodlines, regardless of origin—be it East Africa or Kruger.

COMMENT

Diamant represents the young, untapped genetics the buffalo breeding industry has been waiting for. While he may not come from an extensive pedigree, this magnificent bull stands out with his impressive build, body structure, and horn qualities that promises to make a significant impact in any buffalo herd.

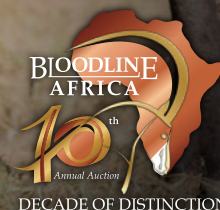

Diamant comes from a strong lineage, with sisters producing 50"+ bull calves and magnificent females as well. And to add to this already impressive family lineage he comes with brothers surpassing the 51" mark.

Don't underestimate the quality of this exceptional bull. With an impressive SCI of 126", and still growing strong, a good indication that he will be surpassing the 53" soon. Diamant is a remarkable prospect and a must-have addition to any serious buffalo breeding program.

- 2.7. Neither the Auctioneer, the Owner / Seller or the Auctioneer's representatives accept any responsibility for any Internet interruption of connection or failure of software that leads to the bidder being disconnected from the live auction, irrespective of whose connection is interrupted. The Auctioneer accepts no responsibility for the loss of potential purchases, if a bid is not recorded due to the interruption of the bidder or if the online system goes offline during the auction process.

3. TIMED AUCTION (IF APPLICABLE)

- 3.1. The provisions of the 'Timed Auction Rules' applies to all lots sold on the 'Timed Auction' and will prevail when in contradiction with the 'Rules of Auction' relating to a lot sold on the 'Timed Auction'.
- 3.2. All goods sold on the Timed Auction will be subject to a reserve price, which

reserve price may be higher than the minimum starting price.

- 3.3. The prospective Buyers and Buyers and/or its representatives, as the case may be, shall take reasonable steps to ensure that he or she is connected to the internet. It is advised not to utilize the internet if connectivity is poor and/or less than 4 megabits per second (Mbps) upload and download speed.
- 3.4. In respect of lots auctioned on the Timed Auction, the following additional terms and conditions will apply:
 - 3.4.1. Subject to paragraph 3.4.2 below, lots on the timed auction will close as per the specified date and time per lot as advertised on the online bidding platform, subject to an Extension Period. The closing of lots may be staggered.
 - 3.4.2. In the event where bidding on a lot will close and a bid is received within two (2) minutes of the published closing time, the time to enter a bid shall be automatically extended for an additional period, which period is customarily two (2) minutes, but may vary from time to time (the "Extension Period").
 - 3.4.3. A lot will not close if a bid is received during an Extension Period and shall automatically be extended for a further Extension Period. A lot will only close if a final bid on the lot stands alone for a period equal to the Extension Period. The lot will only close if a final bid on the lot is received and stands alone for a period equal to the Extension Period.
 - 3.4.4. The "fall of the hammer" on a lot for the purposes of the timed auction is defined as the date and closing time published on the online bidding platform and/or the Seller's/Auctioneer's public websites, alternatively at the date and time a final bid on a lot stands alone for a period equal to the Extension Period, whichever occurs last.
 - 3.4.5. All lots on sale on the timed auction will have a minimum starting bid price which will be indicated on the online bidding platform. Should the reserve price not be met, the lot will not be sold and shall be marked to be 'Subject to Confirmation (STC)'. Should the aforementioned occur it is advised to make contact with the Auctioneer as soon as possible to obtain instructions from the Owner/Seller to explore the viability of entering a transaction. This does not create any right of refusal nor does it impose an obligation on the Owner/Seller or the Auctioneer to enter any transaction.
 - 3.4.6. The minimum bidding increment may vary per lot but is specified on the online bidding platform.
 - 3.4.7. Once a bid is made it cannot be withdrawn.
 - 3.4.8. Neither the Auctioneer, the Sellers' or the Auctioneer's representatives will be liable for any failure in connectivity or software while using the online bidding platform.
 - 3.4.9. Neither the Auctioneer, the Sellers or the Auctioneer or Sellers' representatives will be liable for software failure of any nature.
